About the Role

Location – Hyderabad #LI Hybrid

About the Role:

To support the development, dissemination, and maintenance of Value & Access (Health Economics & Outcomes Research [HEOR]) deliverables for selected key strategic asset/s for a specific disease/condition. Deliverables: Cost effectiveness models, budget impact models and their updates, and other activities as directed by clients across Novartis.

Key Responsibilities:

- Develop optimal knowledge and experience in HEOR (Economic Modeling). Develop and maintain the qualitative and/or quantitative deliverables as per the client requirements in accordance with the agreed standard process and timelines
- Liaise with clients on project schedule/planning of deliverables. Ensure that the new associates/junior colleagues deliver quality deliverables by providing guidance and performing QC/review
- Support clients to conduct payer insight generation and ad-hoc activities (e.g. Payer AdBoards / primary market research) as and when required. Deliver adhoc and cross-functional requests and activities
- Support the development of additional guidance and training materials (i.e. checklists, QA processes etc.). Contribute to the continual improvement of the assigned deliverables and the guidance template
- Develop long-term, peer-level relationships with key clients. Train and ensure functional development of new associates/junior colleagues within V&A team. Complies with and support group's project management tool, standards and policies. Maintains records for all assigned projects including archiving. Maintains audit, SOP and training compliance

Essential Requirements:

- Undergraduate degree in a relevant scientific discipline plus graduate degree (Masters or PhD) in relevant discipline (including health economics, epidemiology, health services research, public health, or business management)
- Pharmaceutical domain knowledge. MS-Office skills (MS-Excel, MS-Word, and MS-Power-point)
- 5+ years conducting PMA or health economic and outcomes research (HE&OR) for pharmaceutical products in pharma industry, contract research organization, or academic institute; or experience in a closely related discipline within the pharma industry (e.g. clinical research, statistics, epidemiology, pricing analytics)
- Ability to work, prioritize, and drive projects independently
