

Pipeline Field Medical Advisor

Job ID
REQ-10029430
Nov 20, 2024
Israel

About the Role

Your Key Responsibilities:

Your responsibilities include, but not limited to:

- Strategic Development- Guide drug development strategy across clinical stages and analyze therapeutic value and market potential of emerging compounds.
- Pipeline Evaluation- Assess scientific validity and clinical potential of drug candidates. Identifies Real World Evidence (RWE) needs and utilizes implementation science and other innovative methodologies. Provide comprehensive medical and scientific insights for pipeline progression. Conduct in-depth medical literature and clinical research reviews.
- Cross-Functional Collaboration- Collaborate with access, clinical, research, regulatory, supply, and commercial teams, Facilitate communication between medical, scientific, and business units. Represent medical perspective in strategic decision-making processes.
- Stakeholder Engagement- Interact with external scientific communities and key opinion leaders. Develop scientific presentations and medical communications. Support regulatory interactions, health basket process, and scientific project (advisory boards, events, etc).
- Patient-Centric Innovation- Ensure patient needs drive pipeline development strategy. Identify potential patient benefits and clinical outcome improvements. Contribute to innovative therapeutic solution development.

Essential Requirements:

- Education: MD, PhD, Veterinarian or PharmD.
- 2-4 years of experience in pharmaceutical medical affairs.
- Proficient Hebrew and English, both written and spoken.
- Exceptional communication skills and customer orientation.
- Project Management.
- Cross functional collaboration.
- Strong business acumen.
- Demonstrated self-management skills.

Desirable Requirements:

- Experience with RWE and Clinical trials.
- Experience with pre-launch and launch process.
