

Global Category Manager MRO

Job ID
REQ-10022549
Oct 03, 2024
Poland

About the Role

Major accountabilities:

- Implement category strategic goals from overall Procurement strategy / Ecosystem management
- Planning, organizing and managing projects taking into account priorities, resources, budgets, issues and constraints to achieve desired results; defining clear project scope and objectives; utilizing software and tools to plan, track and report status.
- Mapping the value chain, analyzing it and deriving potential scenarios. Includes the understanding and application of total cost of ownership, and should cost modelling.
- Participating in and / or leading financial discussions. Applying financial knowledge to participate actively, e.g. in budgeting process, including tax aspects in sourcing strategies and structuring sophisticated deals with ecosystem partners.
- Compliance & risk management: supporting reports to determine appropriate compliance level. Monitoring end-to-end compliance (budget, payment, vendor PO, contract invoice, buying channel, etc.) and deriving corrective actions to improve compliance. Applying risk management processes including identifying and evaluating risks, and defining and executing a risk mitigation plan.
- Projecting the dynamics and impacts (e.g. mergers and acquisitions). Extracting, cleansing and consolidating information to fact-based insights for further usage e.g. in category strategies.
- Maintaining and updating Procurement applications accordingly to the Procurement content (e.g. e-catalogs, user portal). Continuous improvement of procurement content and automation.
- Support definition and implementation of Procurement tools and processes.
- Managing data analysis and reporting, e.g. analyzing spend, demand, supply markets and competitors. Extracting, cleansing and consolidating information to fact-based insights for further usage e.g. in category strategies.
- Demand management
- Responsible to ensure the right balance between business needs and Novartis' strategy.
- Accountable to work with stakeholders to identify the most cost-effective ways to deliver business objectives.
- Sourcing and supplier relationships management
- Executing the Source-to-Contract process including respective strategies, approaches and methods: Preparing and conducting fact-based negotiations. Adapting tactics from a broad portfolio of negotiation strategies to achieve results that support business and Procurement objectives.
- Proactive assessment of new ways of working, involving innovative scientific & technical solutions by identifying and onboarding the right suppliers.
- Manage relationships with stakeholders
- Analyzing specifications for optimization. Linking specification to customer value, challenging specification confidently. Conveying messages clearly and convincing stakeholders.

- Achieving results by proactively building long-term, sustainable and effective relationships, understanding the stakeholder landscape and demonstrating political astuteness across business structures and networks.

Key performance indicators:

- Successful project execution by providing all external solutions in time / at the required quality / within budget as verified by the business.
- Value Delivery – right-sized spending and projected savings in compliance with a meaningful guideline.
- Successful and measurable execution on efficiency programs (e.g. Power of Purpose).
- Measurable and continuous process improvement & compliance assurance.
- Understanding the Procurement KPIs related to market insights, price and demand development as well as procurement's performance.

Minimum Requirements:

Work Experience:

- >10 years of experience in Procurement or other related experience within the Automotive industry, preferably in category management, supplier management, or related area, with a focus in the Equipment or Maintenance domain.
- Strong project management or other leadership experience.
- Raw materials & components price / risk management including execution/trading based
- Well versed in regulated market cost base analysis

Skills:

- Effective Communication.
- Finance Management.
- Internal And External Customer Needs Analysis & Satisfaction Studies.
- Managing Resources.
- Negotiating.

Languages :

- English.
